PROMINENT MEN OF HONOLULU AND THEIR OPINION OF GUARDS

ED TOWSE—The opportunities for drilling, shooting, comradeship, camping and beneficial discipline should attract all young men to service in the national guard of Hawaii for a few years. I think the idea of a Chinese company is an excellent one, and that such an organization will make good may be seen from the enthusiasm now being taken in it.

COL. JOHN SOPER—The formation of an All-Chinese company will prove a valuable addition to the national guard of Hawaii. I recall an incident during my period of service when we had in one of the companies a young Chinese commissioned officer. He did his work and performed his duties remarkably well, was prompt and took and intense interest in the militia. Those who were in the guard with me will know who I have reference to. If the members of the new Chinese company take the interest in the guard which he did, it will without doubt become one of the crack companies of the regiment.

A. L. CASTLE—The plan now on foot to organize three new national guard companies before the end of the year proves the fact that an increased interest is being taken in Hawaii's militia. Enthusiasm is a thing which has been needed in the guard for a good many years. The national guard offers a variety of inducements to the young man, and the fine new armory which is now nearing completion will become one of the finest social centers in the city. Every manner of recreation and entertainment will be provided for the members of the various companies. The young man who enlists in the guard for the required period of three years will never regret it.

GENERAL FUNSTON—Oahu should make a concerted effort to recruit a full regiment of militia for the island, with detached companies, or if possible, battalions on the other islands. At the same time, a regiment here will do great credit to the patriotism and military enthusiasm of the people. If you stop to figure it out, on the basis of population, a regiment here is equal to about 140 regiments in New York. New York has about a tenth that number, so Oahu will set a high water mark in militia affairs when a full strength regiment is recruited.

LIEUTENANT-COLONEL CAMPBELL—I have been much interested in following the fortunes of the Chinese-American national guard company and am glad to hear that it is now recruited to beyond the minimum strength and that more enlistments are coming in. I have seen something of Chinese soldiers and think very highly of them. They are smart, adaptable and courageous.

LIEUTENANT W. G. BALL—I believe that all the regular army officers who keep in touch with local affairs are closely watching this new Chinese company. The general opinion is that it will make good and that it will be a credit to the United States uniform.

DR. C. B. COOPER—The question of an all-Chinese company for the national guard of Hawaii is an excellent idea. The Chinese in the territory have made good in industrial, commercial and educational circles. I believe that such a company, properly officered, would in a short time make the other organizations look to their laurels. With the forming of the additional companies in order that Hawaii may boast of a complete regiment of the organized militia, a new interest will be born in the guard which will receive marked impetus with the completion of the armory.

PAUL SUPER—Yes, there will be a good chance for promotion in the white company of the National Guard of Hawaii which I am now organizing. We would like men to come into the guard with a view to becoming proficient and working up.

HAWAII THEATER

Tonight is the last night that you can see the regatta day races thrown on the screen at the Hawaii Theater. The moving pictures of the local scenes has drawn the crowds nightly that it was intended to do and tonight will probably be the banner night. It is one of the greatest films that has ever been shown to the local public. The chances are that you will see yourself in the picture as nearly all the people of the city were there and the film covers practically the whole waterfront. Don't miss this chance to see it all over again.

SUPERVISORS ARRANGE TO MEET EXPENSES OF FUNERAL OF ABREU

A resolution passed first reading at the board of supervisors last night by which the funeral expenses of Officer Abreu, shot in the performance of his duty will be paid by the city and county. The resolution calls for \$458.20, but only \$200.00 dollars of it will be used for the funeral expenses. The balance is to cover sundry bills of the department.

M'DONALD FAMILY RECIPIENT OF AID

(Continued from page one)

stand that she has well-to-do relations on the mainland, in Boston and Maine, I believe. The matter is certainly a difficult one to handle. Mrs. McDonald, I hear, received her education in a convent and knows nothing of the proceedings of the business world, thus making the condition a difficult one for her. She is the mother of two splendid little boys, and they are just as sensitive in the matter as she is.

"Jack Cleary went out yesterday and had the water turned on, and the lights were connected this morning. An order of groceries was sent to the house and the policemen removed until such a time as it is decided what is best to be done. I mentioned the matter to Mrs. McDonald of her leaving the territory and going to the mainland with her children to reside with relatives, but she told me that she did not care to do this, as she had lived in the territory such a long time and preferred to remain here. I went to see the creditors yesterday to see if some compromise could be made by which her home could be retained by her. I received excellent support and I feel that the money may be raised to pay off these debts. As to the house, I understand that at one time it belonged to Mrs. McDonald, but before her husband left the territory he caused her to sign it away, and now she does not know what to do. Personally, I do not believe that such a transaction is legal."

Interested in Family.

Mr. Hughes was very enthusiastic over the matter this morning, saying that more and more people are becoming interested in the case and offering their support. Every debt which Mrs. McDonald is now beset with was run by her husband, it is said, and she owes no one in Honolulu. Mr. Hughes believes that the money to offset them can be easily raised if those at the head of the movement are assured of the co-operation of the creditors.

"After reading the account of the case Monday afternoon, Mr. Walker and myself went to see Mrs. McDonald," said Mr. Hughes. "It was the Star-Bulletin which first brought out the case in its true light. I am going to see a lawyer today and see what further may be done. The fact that Mrs. McDonald was caused to sign her house away has lost it to her but I do not think the transaction can be held valid in the law."

According to late wireless, the Matson Navigation steamer Hyades with a quantity of general cargo for discharge at Honolulu, Port Allen, Kahului and Hilo, will arrive at this port this afternoon. The Hyades is to take a limited amount of sugar and several thousand cases of preserved pines.

CONSERVATION CONGRESS TO BE OPEN TO ALL

WASHINGTON, D. C.—The prospect of a fierce fight on forestry, at the national conservation congress, in Washington, D. C., November 18-20, has brought requests from all parts of the country for the privilege of the floor of the convention. The congress has accepted the challenge of the Oregon Development League, one of the

principal opponents of the conservation policy, and has given a place on its program to one of the big guns of the Oregon organization. Fireworks are expected.

The large number of requests from opposing sides has caused the executive committee of the congress to throw down the bars to all. For the first time in the history of the congress, the committee has extended a general invitation to the congress to

everyone who is interested in conservation and forestry. Hundreds of organizations, national, state and local, have appointed delegates to the congress. Scores of other organizations which have not received special invitations are expected to appoint delegates under the open door policy of the executive committee.
